

ABSTRACT OF THE DISCLOSURE

There is provided a reproduction apparatus for reproducing stream data recorded on a recording medium, the stream data containing menu item coordinate information representing a display location of a menu item and image information representing an image. The reproduction apparatus includes: a reading section for reading the stream data from the recording medium; an extraction section for extracting the menu item coordinate information contained in the stream data; a reproduction section for reproducing the image information contained in the stream data; a determination section for determining whether or not the menu item has been selected by comparing the extracted menu item coordinate information against a user input in the form of coordinate information; and an execution section for executing a process corresponding to the menu item if the menu item is determined to have been selected.
